## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

### **EXAMINER'S AMENDMENT**

2. The Applicant's representative was contacted for canceling claims 13 and 14.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy E. Siegel on June 15, 2005.

The application has been amended as follows:

Claims 13 and 14 have been cancelled.

### ***Allowable Subject Matter***

4. Claims 1 – 12 are now allowed.
5. The following is an examiner's statement of reasons for allowance:

Claims 1 – 12 recite, inter alia, a method of forming a multilevel electronic device by machining into a substrate a set of first indentations, at a first level, depositing conductive material into the first indentations to create a set of first conductive features, filling the first indentations with dielectric material, machining again into said substrate a set of second indentations, at a second level and depositing conductive material into

Art Unit: 2891

said second indentations to create a set of second conductive features. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

***Conclusion***

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
